

# Perfect Turf

## Product Specifications

### PT PetGrass™

**PT PetGrass™** is the newest turf in the Perfect Turf line of synthetic turf products. **PT PetGrass™** is designed specifically for use with dogs. **PT PetGrass™** has a special backing for complete drainage and has anti-microbial agents built into the yarn and the backing, all designed to help minimize odors. The beautiful soft two-tone polyethylene grass blades combined with the green thatch layer give this turf its natural look. The specially designed backing is made for extra durability without sacrificing the benefits of flow-through drainage.
